allows the air to blow out the vents or on the floor is stuck in the floor position. When the mode control switch is depressed it does change from vents to floor to both but the flapper valve that controls the flow of air does not respond.

I have a 2005 Honda Pilot and the heater and air ...

I recently bought a 2005 Honda Pilot EX with 126K miles and automatic climate control. The problem I am having is that the heater does not get very hot, even on HI. When I run the heater, I can hear what sounds like trickling water under the dash when I accelerate. At this time the heater does get a little warmer. I am assuming this means that the heater core not blocked. I have no leaks in ...
