## FAQs - Easton Archery - Archery Questions Answered

**Bare Shaft Tuning** This description is based upon a right handed archer, swap the lefts and rights around for a left handed archer. It is also assumed that you have already set the bows centre shot, although it should be noted that you can still set the centre shot on a bow even if the arrows are weak or stiff. Bare shaft tuning will help us: 1 ...

## Bow Tuning - Bare Shaft

The purpose of tuning is to configure the proper combination of nocking points, arrow rest, bow, and arrows. The archer's form while tuning must be consistent. For the new archer, it is more important to work on correct and consistent form before detailed tuning. Tuning is a continuous process. As the archer's form

## EASTON TARGET SELECTION CHART - MeigArco

There are many available online or from your local archery shop, but I would personally choose the "Easton Tuning Guide" as it's clear and comprehensive). Once you have got your bow shooting bullet holes at close range you will need to repeat the paper test from a longer distance, so walk back two or three metres and shoot the test again. Hopefully you will still be shooting a bullet ...
