German cruiser Karlsruhe - Wikipedia

The German cruisers in use during the First World War fall into three broad categories – heavy cruisers, battlecruisers and light cruisers. The heavy cruisers consisted of older protected and armoured cruisers. Up to the Scharnhorst class they were not especially well designed ships, which carried twice the number of the heaviest 8.3in guns.

German Light Cruisers of World War II: Emden, Konigsberg ...

The Kaiserliche Marine, the navy of the German Empire, built a series of battlecruisers in the first half of the 20th century. The battlecruiser type was an outgrowth of older armored cruiser designs; they were intended to scout for the main battle fleet and attack the reconnaissance forces of opposing fleets. Kaiser Wilhelm II insisted that the new battlecruisers be able to fight in the line ...

List of battlecruisers of Germany - Wikipedia

HMS Endymion like most of the Edgar class started the war as part of the 10th Cruiser Squadron which was tasked with enforcing the northern blockade on Germany. Unfortunately these old cruisers were not well suited to the task as they had insufficient sea-keeping and endurance and in 1915 they were replaced by Armed Merchant Cruisers.
