Hypergeometric Summation An Algorithmic Approach To Summation And Special Function Identities Universitext

Thank you for downloading hypergeometric summation an algorithmic approach to summation and special function identities universitext. Maybe you have knowledge that, people have search hundreds times for their favorite books like this hypergeometric summation an algorithmic approach to summation and special function identities universitext, but end up in harmful downloads. Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some malicious bugs inside their computer.

hypergeometric summation an algorithmic approach to summation and special function identities universitext is available in our digital library an online access to it is set as public so you can get it instantly.

Our books collection saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the hypergeometric summation an algorithmic approach to summation and special function identities universitext is universally compatible with any devices to read

Springer Universitext Series: Hypergeometric Summation

Modern algorithmic techniques for summation, most of which were introduced in the 1990s, are developed here and carefully implemented in the computer algebra system Maple. The algorithms of Fasenmyer, Gosper, Zeilberger, Petkovšek and van Hoeij for hypergeometric summation and recurrence equations, efficient multivariate summation as well as q -analogues of the above algorithms are covered.

In this book modern algorithmic techniques for summation, most of which have been introduced within the last decade, are developed and carefully implemented in the computer algebra system Maple. The algorithms of Gosper, Zeilberger and Petkovšek on hypergeometric summation and recurrence equations and their q -analogues are covered, and similar algorithms on differential equations are considered.
