This children's book on the life of the Prophet Muhammad is taken from traditional Muslim biographical literature, including hadith. Passages from the Qur'an are used throughout to reinforce the stories. The material is authentic and the style lively and attractive. Although the book has been written for children of 10 to 15 years of age, it can be usefully read by anyone as an introduction because of its completeness and clarity. There are 32 colour illustrations although there has been no attempt to portray either the Prophet or his Companions. The illustrations are representative of traditional Islamic life as lived in many Arab countries and portray scenes that have occurred in those countries for over a thousand years.

Relates key events in Muhammad's life to his spiritual and ethical teachings, and reflects on the prophet's example in terms of some of today's most controversial issues.

If you already know the Holy Prophet - This book is the perfect medium to learn more about the Prophet through the Qur'an and the recollections of his immediate family. I wrote it for those who want a simple narrative on the Holy Prophet's life in an easy to understand sequence without too many details of the peripherals. The most appropriate age group would be 'more aware' 10-90 years old. If you are new to learning about the Prophet of Islam - This book will introduce to the real Muhammad, the most compassionate man ever lived on this planet. This book will help you appreciate Muhammad for what he really is and discern from what he has been made to look like by his adversaries. It will also introduce you to his enemies, the most vicious people Muhammad had to contend with, only to bring them out of their misery of ignorance. These were the similar people you hear about in the news still today, those who carry the same name as Muhammad but have the character of his opponents. Book Summary - In this comprehensive, concise, and easy to read chronicle, Abu Moosa Reza has recounted the most defining era of Islam, its birth, at the hands of its first preacher, the Last Prophet Muhammad. By narrating the story of the budding days of Islam through the lenses of the message and the mission of the Holy Prophet, Mr. Reza has covered all critical events in the life of its founder; the events that stimulated many social, political, and intellectual movements throughout Asia and most of Europe. In contrast to many other books on the early history of Islam, this book provides the reader with a deeper perspective of the pre-Islamic sensitivities, biases, and alliances that affected the direction of Islam immediately after the demise of the Holy Prophet, both as a religion and as a political force. Many modern-day synergies

and conflicts could be understood after reading this book by realizing the events past and present as a continuum rather than a one-off happening.

A narrative history of the origins of the Shia and Sunni conflict describes how a seventh-century struggle between the supporters of the late Muhammad's surviving family members erupted in a massacre at Karbala that would become a central component of Shia Islam.

The oldest Islamic biography of Muhammad, written in the mid-eighth century, relates that the prophet died at Medina in 632, while earlier and more numerous Jewish, Christian, Samaritan, and even Islamic sources indicate that Muhammad survived to lead the conquest of Palestine, beginning in 634-35. Although this discrepancy has been known for several decades, Stephen J. Shoemaker here writes the first systematic study of the various traditions. Using methods and perspectives borrowed from biblical studies, Shoemaker concludes that these reports of Muhammad's leadership during the Palestinian invasion likely preserve an early Islamic tradition that was later revised to meet the needs of a changing Islamic self-identity. Muhammad and his followers appear to have expected the world to end in the immediate future, perhaps even in their own lifetimes, Shoemaker contends. When the eschatological Hour failed to arrive on schedule and continued to be deferred to an ever more distant point, the meaning of Muhammad's message and the faith that he established needed to be fundamentally rethought by his early followers. The larger purpose of *The Death of a Prophet* exceeds the mere possibility of adjusting the date of Muhammad's death by a few years; far more important to Shoemaker are questions about the manner in which Islamic origins should be studied. The difference in the early sources affords an important opening through which to explore the nature of primitive Islam more broadly. Arguing for greater methodological unity between the study of Christian and Islamic origins, Shoemaker emphasizes the potential value of non-Islamic sources for reconstructing the history of formative Islam.

Acclaimed worldwide as the definitive biography of the Prophet Muhammad in the English language, Martin Lings' *Muhammad: His Life Based on the Earliest Sources* is unlike any other. Based on Arabic sources of the eighth and ninth centuries, of which some important passages are translated here for the first time, it owes the freshness and directness of its approach to the words of men and women who heard Muhammad speak and witnessed the events of his life.
