trains, planes, ships and on bikes - and some people even blast off in rockets! Make your own amazing transport journeys as you explore timelines and discover the people and stories behind the machines that keep the world moving. Take a twist or turn and find out what happened when the Freedom 7 blasted into space, race your way through Japan at lightning speed on the awesomely fast bullet train, set sail on a Viking longship and let the wind carry you away in a hot-air balloon with the Montgolfier brothers. With wonderfully intricate illustrations from Chris Mould, Amazing Transport tells the story of some of science's most recognisable inventions in a way you've never seen before. Prepare yourself for the journey of a lifetime.

Each session in this practical book offers an imaginary situation, followed by a series of questions to encourage children to challenge key philosophical ideas such as values and ethics, gender and identity, and existence and beauty. All the enquiries have been tried and tested, and a handy star system is included to indicate the difficulty level of each one. With a comprehensive introduction and key sections on the philosophy behind the experiments, this book also includes an online teacher's resource to guide practitioners through using the sessions to best effect in the classroom.

Describes who the Vikings were, where they traveled to, and daily life in a Viking household.

Moving On to Key Stage 1 has been highly influential in developing innovative, developmentally appropriate KS1 practice in schools across the country. This new edition offers teachers further powerful and persuasive arguments for continuing play-based learning into Year 1 and 2. This new edition contains:

- Brand new research identifying the current concerns of teachers in KS1 and setting these in the context of the current 'school readiness' agenda
- An updated chapter on how children learn most naturally age 5-7 years and how to capitalise on this
- A revised chapter on play, which draws on teacher views about its benefits for KS1 children and the barriers they face in incorporating it into their practice
- A new chapter offering messages from headteachers advocating a play-based approach, and providing examples of how it has raised standards
- A fresh consideration of how to balance adult-led and child-led learning and the role of the teacher in supporting both

The author has a deep understanding of the challenges facing teachers in developing this fusion of pedagogies, and this book offers every reader principled and inspiring ways of meeting these challenges with success. Julie Fisher is an independent Early Years Adviser and Visiting Professor of Early Childhood
