The Cartoon History of the Modern World is a wickedly funny take on modern history. It is essentially a complete and up-to-date course in college level Modern World History, but presented as a graphic novel. In an engaging and humorous graphic style, Larry Gonick covers the history, personalities and big topics that have shaped our universe over the past five centuries, including the Industrial Revolution, the American Revolution, the Russian Revolution, the evolution of political, social, economic, and scientific thought, Communism, Fascism, Nazism, the Cold War, Globalization—and much more. Volume 1 of the Cartoon History of the Modern World picks up from Gonick's award winning Cartoon History of the Universe Series. That series began with the Big Bang and ended with Christopher Columbus sailing for the New World. This book starts off with peoples that Columbus "discovered" and ends with the U.S. Revolution.

The era from 1400 to 1800 saw intense biological, commercial, and cultural exchanges, and the creation of global connections on an unprecedented scale. Divided into two books, Volume 6 of the Cambridge World History series considers these critical transformations. The first book examines the material and political foundations of the era, including global considerations of the environment, disease, technology, and cities, along with regional studies of empires in the eastern and western hemispheres, crossroads areas such as the Indian Ocean, Central Asia, and the Caribbean, and sites of competition and conflict, including Southeast Asia, Africa, and the Mediterranean. The second book focuses on patterns of change, examining the expansion of Christianity and Islam, migrations, warfare, and other topics on a global scale, and offering insightful detailed analyses of the Columbian exchange, slavery, silver, trade, entrepreneurs, Asian religions, legal encounters, plantation economies, early industrialism, and the writing of history.

Describes the effect of human action on the world's environment.

Cross-Cultural Encounters in Modern World History explores cultural contact as an agent of change. It takes an encounters approach to world history since 1500, rather than a political one, to reveal different perspectives and experiences as well as key patterns and transformations. It studies the spaces between cultures historically to help us transcend human differences today in a rapidly globalizing world. The text focuses on first encounters that suggest long-term developments and particularly significant encounters that have changed the direction of world history. Because of the complexities of these encounters, the author takes a user-friendly approach to keep the text accessible to students with varying backgrounds in history.

AP Biology Premium Prep, 2021, previously titled Cracking the AP Biology Exam, Premium Edition, will now include a total of 6 full-length practice tests. The Premium edition continues to provide students with comprehensive topic reviews of all AP Biology subjects, from photosynthesis to genetics to evolution. This Premium edition now includes 6 full-length practice tests (4 in the book and 2 online) for the most practice possible.

The Middle East in Modern World History focuses on the history of this region over the past 200 years. It examines how global trends during this period shaped the Middle East and how these trends were affected by the region's development. Three trends from the past two centuries are highlighted: The region as a strategic conduit between East and West The development of the region's natural resources, especially oil The impact of a rapidly globalizing world economy on the Middle East
