THE RICHEST, THE SIMPLEST The world knows India's richest and most influential man is quiet, modest and shy! A technocrat and management expert par excellence, he could always see far into the future and pinpoint the businesses that would change the face of his company profile. The biggest difference in him and other businesspeople is his ability to understand what is must, desirable and avoidable. This quality alone has made Mr. Mukesh Dhirubhai Ambani the richest and most influential figure in India

Mukesh Dhirubhai Ambani (born 19 April 1957) is an Indian billionaire businessman, and the chairman, managing director, and largest shareholder of Reliance Industries Ltd. (RIL), a Fortune Global 500 company and India's most valuable company by market value. He is the second richest person in Asia with a net worth of US\$74 billion in January 2021, and as of 28 December 2020, the 14th richest in the world. Hope you all will love it!

The idea of writing this book originated after recognition of my developmental work by Fast Company as a world-changing idea 2020 [honorable mention] in the energy category. This book is a small effort from my side to share my experience of developing various coating products and managing the new product programs from an idea to a real product. The purpose of writing this book is to help and support product developers, project managers and business owners in the creation of world class ideas and illustrate the process of converting them into a real life product which can be recognised as a great solution by customers and external bodies. The examples used throughout this book are related to my coating development experience, but I am sure this will help all product development professionals irrespective of their business domain. Dr. Mukesh Kumar Madhup has an excellent track record in coating development and innovation while working with various companies. This book, in which he has shared his experiences on creating and transforming an idea to a great product, might turn into a prodigious guidebook for professionals working in the 'coatings' and other such related fields. Dr. Nisha K. Shah Former Professor and head, Dept. of Chemistry, School of Sciences Gujarat University, Ahmedabad - 380 009, Gujarat, INDIA.

What else can we have in the zoo?' asked Teju. 'We need more than a lizard.' When Mukesh decides to start a zoo with the help of his friend Teju, little does he know it's no child's play. He and his friends work hard at finding animals, and making them enclosures in their zoo. With a house lizard, a parrot that chants prayers, a dog with yellow eyes, and the washerman's donkey as their star attractions, how could they possibly fail! But when visitors are escorted around the zoo, there is complete pandemonium, ensuing in some rather comical results. Does Mukesh succeed in his dream of becoming a star zookeeper? Peppared with endearing characters and delightful artworks, this story brings alive one of Ruskin Bond's most unforgettable tales.

This review volume presents both basic and applied aspects of diluted magnetic semiconductors (DMS). The term DMS applies generally to semiconductors in which a fraction of its constituent ions are replaced by magnetic ions. This book is only the second to review DMS materials. It presents a detailed treatment of the current state of knowledge of the established properties of DMS in the form of single crystals, quantum wells and superlattices. It also brings together recent work on new DMS materials and presents discussions on a wide range of possible DMS applications.
