graphic design basics - University of Birmingham

Visual notes are graphic outlines that help us record and learn new information. According to Mike Rohde, author of one of the most well-known handbooks in this area, sketchnotes are a form of visual note-taking that aims to capture big ideas using a combination of text, images and other graphic elements.

three steps: (1) decide what essentially needs to be conveyed by the design; (2) critically examine every element (label, control, color, font, line weight) to decide whether it serves an essential purpose; (3) remove it if it isn't essential. Even if it seems essential, try removing it anyway, to see if the design falls apart.

6.831/6.813 Lecture 18 Notes, Graphic design

Graphic design is the process of visual communication through the use of typography, photography, iconography and illustration. The field is considered a subset of visual communication and communication design, but sometimes the term "graphic design" is used synonymously. Graphic designers create and combine symbols, images and text to form visual representations of ideas and messages. They use typography, visual arts, and page layout techniques to create visual compositions. Common applications
