(PDF) Writing in the Sciences: Exploring Conventions of ...

--Penrose & Katz, Writing in the Sciences The National Science Foundation: Scientists have an obligation to present their work to the public and to demonstrate the implications that research may have on issues of public concern.

Writing to Learn & Learning to Write

Penrose, Ann M., & Katz, Steven B. (2003). "Ch. 8. Communicating with a Public Audience." *Writing in the Sciences*: Pearson/Longman.. Ann Penrose and Steven Katz first define public audiences as a "wide range of listeners and readers with a variety of interests, needs, and educational backgrounds." "No single, "rationalistic" formula will suffice to define them or their interests."

Communicating with Public Audiences, Penrose/Katz ...

Writing in the Sciences: Exploring Conventions of ...

In *Writing in the Sciences: Exploring Conventions of Scientific Discourse*, Ann M. Penrose and Steven B. Katz note that the scientist who wishes to communicate with a public audience must weigh carefully not only the audience's prior knowledge of a topic, but also the nature and degree of its interest in that topic. Scientists communicating with their peers can depend on their readers to be both knowledgeable and intrinsically interested in their topic.

Adaptation Strategies and Rhetorical Appeals

Adapted from Penrose & Katz, *Writing in the Sciences* (2010) 6 Reading and Writing Research Reports, part 1 The Logic of Scientific Inquiry 1. IMRAD is not suitable for theoretical or historical research—the primary goal of such research is not to test hypotheses but to formulate hypotheses, to propose theories or models that account for the field's observations to date 2.

Chapter 4 Part 1 - slideshare.net

"A rhetorical, multi-disciplinary guide, *Writing in the Sciences* discusses the major genres of science writing including research reports, grant proposals, conference presentations, and a variety of forms of public communication. Multiple
