pipe. What may lead to the condensate pipe leaking is if the hot water causes the pipe joints to fail somehow.

Is your boiler condensate pipe leaking? Here's what to do!
On the other hand, if the car has been

Get Free Pipe Coming Out Of Head That Goes To

running for a few minutes and the white smoke coming out of the exhaust pipe is very thick, it could be a more serious problem with your engine. Most likely, there is a blown head casket, cracked cylinder head or a cracked engine block that is letting water slip into the engine and into the

Get Free Pipe Coming Out Of Head That Goes To

mixture, resulting in the white smoke and water coming out of the exhaust pipe.

A Liquid Comes Out Of My Exhaust Pipe What Could This Be?

If you notice coolant there, you might have a problem with your head gasket

Step 1: Inspect The Intake Gasket.

Intake gasket is the first part to check when you have white smoke from exhaust. Inside the vehicle, there is a gasket that seals the manifold to the head. These parts take the role of distribution the combustion mixture,
