America is in many ways comparable to the ancient civilizations of the Mediterranean. Generally regarded as America's oldest book, the Popol Vuh, in fact, corresponds to our Christian Bible, and it is, moreover, the most important of the five pieces of the great library treasures of the Maya that survived the Spanish Conquest. The Popol Vuh was first transcribed in the Quiche language, but in Latin characters, in the middle of the sixteenth century, by some unknown but highly literate Quiche Maya Indian-probably from the oral traditions of his people. This now lost manuscript was copied at the end of

creation of the sun and the moon seen through shades of neon. The Popol Vuh, meaning "Book of the People", is an epic saga that recounts the creation myth and history of the K'iche Mayan ancestors. This short story version is a visual representation of one of the very few recorded Mayan legends we have left today. The majority of their literature in science and the arts were burnt in an instant by the Spanish invaders and lost forever. Luckily, this epic journey was stowed away and found years later offering us a glimpse into a culture shrouded in mystery. Emanuel Carballo puts his own artistic flavor to the

Life And The Glories Of Gods And Kings captivate people. In 2012 especially, there was a renewed focus on the Mayans, whose advanced calendar led many to speculate the world would end on the same date the Mayan calendar ends. The focus on the "doomsday" scenario, however, overshadowed the Mayans' true contribution to astronomy, language, sports, and art. Unlike most of the world's sacred books - the Quran, the Bible or the I-Ching for example - nobody knows the universal name, if there ever was one, for the Maya's collection of myths. Instead, the title that has been passed down, the "Popol Vuh," appears to be the specific title given

to a particular copy of these tales. Its meaning, roughly translated as the Council Book, refers to the special role of this text: it was the shared property of the council of lords that ruled the Quiché kingdom and was apparently regularly consulted by that body for advice to guide their rule. However, in the opening sections, the scribes who penned the text also give it several other names, including "the Light That Came from Beside the Sea," "Our Place in the Shadows" and "The Dawn of Life" (pg 63). All of these names were originally in K'ichean Maya, the language spoken by the

neighboring regions. The first of these names refers to a pilgrimage by the second generation of Quiché lords in Part V to the Yucatan coast to acquire a copy of at least a portion of the original text. The second refers to Part IV, the period before the first Dawn (the "Shadows") when the ancestral Quiché earned their particular right to rule. The final name refers to Part I, when the first gods created all of the various parts of life. This multiplicity of names and titles for sacred works is not uncommon, and perhaps comparable to the Bible being

The name Popol Vuh is itself controversial as the original text actually spells the name three different ways: "Popol Vuh", of course, but also "Pop Wuj" and "Popol Wuj." In general, the most correct form in contemporary Quiche spelling is probably "Popol Wuj", but as the text is best known in English with the word "Vuh", this convention will be maintained here (Eenriik 2014). There are a number of translations and editions of the Popol Vuh, which vary considerably in quality. Many

early editions were not informed by the latest scholarship in Maya linguistics and sometimes the ways they translate names in particular can vary. This text will use the Second Edition (1996), translated by Dennis Tedlock and published by Simon and Schuster, for all of its quotations and page citations. The Popol Vuh: The History and Legacy of the Maya's Creation Myth and Epic Legends examines what's contained within and how the Popol Vuh survived to the present day. Along with pictures depicting important people, places, and events, you will learn about the Popol Vuh like never before.

This 2004 book investigates the relationship between historical earthquakes in the Americas and structural damage at archaeological sites.

Joaquin Buitrago, a photographer in the Castaneda Insane Asylum, believes a patient is a prostitute he knew years earlier. His obsession in confirming Matilde's identity leads him to explore the clinics records, and her tragic history. He discovers that she was a peasant adopted by a doctor uncle. She led a calm life until Castulo, a young

revolutionary chased by the authorities, finds shelter in her home. Matilde's eyes are opened to the social upheaval will lead her to break with her uncle and hide out with Diamantina Vicari. Diamantina's death devastates Matilde so much that she wanders about, completely lost, doing all kinds of jobs, including prostitution. As the photographer discovers more details, he becomes convinced that he and Matilde should live together. Ultimately, as they face defeat in a repressive society, they search to establish in the rubble an uncertain future that will somehow restore their
