Stones in Water is a 1997 work of young adult fiction by Donna Jo Napoli. Based loosely on a real account of children in concentration camps during World War II, it concerns the strife of four boys from Italy, Memo, Sergio, Roberto, and Samuele, who are sent to work in one of the camps. They work together to survive the conditions of the labor camp while trying to conceal that one of them is Jewish.

Most Jade can be used with running water, but should not be submerged in water for long periods of time. The water should also be completely free of chlorine, and other chemicals, as this stone is very sensitive. If you do have to get your jade wet, wipe it off with a dry towel and try not to let it air dry, as this can cause damage to its surface.

~~Stones In Water~~

Surgery will usually be needed to remove bladder stones. It may be possible to flush small bladder stones out of your bladder by drinking lots of water, but this may not work if you can't completely empty your bladder of urine.

~~Bladder stones Treatment NHS~~

The best way to prevent kidney stones is to make sure you drink plenty of water each day to avoid becoming dehydrated. To prevent stones returning, you should aim to drink up to 3 litres (5.2 pints) of fluid throughout the day, every day. You're advised to: drink water, but drinks like tea and coffee also count; add fresh lemon juice to your water
