The Technological Singularity | ARTECA

This is referred to as the Technological Singularity, after which all models of growth stop working and an era of uncontrollable and irreversible advancement begins, resulting in unfathomable changes to human civilization. This could be humanity’s last invention and may result in complete annihilation or unthinkable prosperity.

Computer technology advances at a faster rate than many other technologies. Computers tend to double in power every two years or so. This trend is related to Moore's Law, which states that transistors double in power every 18 months. Vinge says that at this rate, it's only a matter of time before humans build a machine that can "think" like a human.

What's the technological singularity? | HowStuffWorks

Raymond Kurzweil (/ ' k ɜːr z w aɪ l / KURZ-wyle; born February 12, 1948) is an American inventor and futurist. He is involved in fields such as optical character recognition (OCR), text-to-speech synthesis, speech recognition technology, and electronic keyboard instruments. He has written books on health, artificial intelligence (AI), transhumanism, the technological singularity, and futurism.

Amazon.co.uk:Customer reviews: The Technological ...

Scientists dramatically call this intelligence explosion the Singularity! This is not to be confused with the term singularity in Physics – which represents an infinitesimally small point from which all of creation came about. But this technological singularity may be just as momentous. How would the singularity happen?
