"The People's Guide to the United States Constitution" is an easy-to-read, spin-free guide to the Constitution, the Bill of Rights and amendments, and the Declaration of Independence, providing both the essential historical context and important definitions of the language used.

American government is required for high school graduation in most of the United States, but most of us receive very little instruction on the contents of the United States Constitution itself. This study guide is designed to guide small groups in delving into the United States Constitution and discovering the original intent of the Founders. The guide will take you from the Mayflower Compact to the 27th Amendment of the United State Constitution, studying in depth the original documents, interpreted by the words of the Founders themselves. Who were the signers of the Declaration of Independence and the United States Constitution? What is the proper jurisdiction of the judicial branch of the government? Why was a bill of rights a necessary addition to the Constitution? This guide explores the answers to these questions and more in a relaxed small group environment that encourages true learning and a love of American heritage.

Covers each article and amendment of the Constitution in a graphic format designed to be relevant and accessible to modern readers.

Studies show that 30%-40% of Americans cannot name a single freedom protected by the First Amendment. How many of the five can you name? Have you read the Constitution?"The Constitution Study is one of my most highly recommended Constitutional Education sources available." - Jessie Rude, Executive, Constitutional Grass Roots MovementIt doesn't take a law degree to understand the supreme law of the land. Most people can read the Constitution in about 20 minutes. And if you're worried about the language being difficult, this book can help. "Paul's expansive knowledge of the U.S. Constitution is invaluable to anyone looking for insightful information about our Nation's founding documents." - Winston Wang, Administrator, The Bipartisan PressWhether you're a long time history buff, or just starting out, this book can help you read and study the Constitution. It was created to protect your rights.

The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization, giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.
