Reveals the dangers associated with widespread scientific ignorance, and explains how scientific thought has served to overcome prejudice and hysteria

From the author of the bestselling *Psychic Surveys* series comes a Christmas ghost novella to chill your bones! Just what defines a haunting? On a strange island, amongst strangers, a strange tale unfolds... Beth Williams leads a lonely existence, going to work, then returning to her flat to watch TV, eat and sleep - the same routine on repeat, day after day. It's a loneliness she nurtures, finds comfort in even, except at Christmas, a time of dread. Then comes an invite, an offer from an old friend, to join him for 'The Damned Season' at his house on an island off the coast of Anglesey, for Christmas with a difference. Intrigued as well as desperate, Beth accepts, arriving there a few days before Christmas Eve. She's not the only one invited, however, there are four others, all strangers to each other, all crossing murky, choppy waters to meet their host, a much changed man that seems not only surprised to see them, but dismayed, and weary too. Who is nothing but a husk. With the boatman gone and the mists closing in, Beth finds herself in a solitary house of ever-changing rooms and never-ending corridors, of people disappearing and then reappearing, of feasts and famine. And then there are the doors, constantly multiplying, and locked...aren't they? *The Damned Season*. It's coming. the most famous cemetery in the world, is renowned for its Victorian Gothic splendour, famous residents, its vampire and, of course, ghosts... Lucy Klein, 42, is not only obsessed with Highgate, she works there too, organising tours for those with an interest in some of the finest Victorian funerary architecture in existence. Single, and on the shy side, she is nonetheless content with her life, or so she thinks. When she meets the enigmatic Zak Harborne, she realises what she's been missing and quickly falls in love. Suddenly, it is the business of living that interests her. 1972, and Emma Matthews, a 19-year-old history student, also feels as though she's on the outside. After visiting a derelict Highgate with a group of friends, she starts to feel a connection, a sense of meaning to her life, in amongst the tombstones, the crosses and the angels. Returning to Highgate over and over, she discovers both a paradise and a garden decidedly more savage. Grace Derby is just 11 when she encounters the gentleman, tall and with a tall hat, a long black coat and a cape about his shoulders. It is the 1850s and street urchins such as her are not accustomed to kindness from those belonging to the upper echelons. Proffering money for food, for her and her family, he asks nothing in return. Curious about the man with the kind blue eyes, she follows him one day... all the way to Highgate. For some, it seems, all roads lead to Highgate...

her mother Jessica she is busy helping grounded spirits to cross the great divide. In turn, Jessica inherited her gift from her mother, Sarah, and Sarah from Rosamund. Throughout the early twentieth century, Rosamund Davis was a woman held in high regard concerning her mediumship abilities and her pioneering work with London's famous psychical society. She published many papers on psychic matters, although there are some that remain unpublished, for the eyes of the Davis family only. It is these unavailable works concerning the non-spirit that fascinate many - entities born of negative thoughts that subsequently take on their own energy. Entities known as demons. But what caused her to write about such dark matter? From her own notes, in her own words, this is Rosamund's account. ~~~
