WebSphere

Application

Server is a

software product

that performs

the role of a

web application

server. More

specifically, it

File Type PDF

Websphere

is a software framework and middleware that hosts Java-based web

applications. It is the flagship product within IBM's WebSphere software suite. It was initially created by Donald F. Ferguson, who

File Type PDF

Websphere

later became CTO of Software for Dell. The first version was launched in 1998. This project was an offshoot from IBM HTTP Server team starting with Domino Go.
